

# ROSS TRADERS HISTORIC TOUR

Saturday, 12th JULY 2008

Spring Update

The Traders in 2008 will be run by the same team as 2007, but we have taken on board the comments that were made in our autumn survey. Regs will be out in late May.

The 2008 event will use about 143 road miles of superb roads and lanes in Herefordshire. There will be five regularities, one of which will be timed to the minute (this will be one of the pre-plot sections). Some of these regularities will have **route instructions** issued at the event start (pre-plot), while you will receive others as you leave the RS (plot and bash): THE NAVIGATION WILL NOT BE DIFFICULT (Can you follow, for instance, a set of tulips in order, all with balls and arrows? Or some spotheights in order?) Novices will receive special information prior to the start to help them.

There will be at least ten tests on private land totalling over four miles. The majority of the tests will use the long asphalt roads of the popular Whitfield Estate that we have not visited for a few years. There will be no need to handbrake round tight turns – though you can if you want, of course! Being sympathetic to your gearboxes, there will be NO REVERSING on the tests.

Our washing line results service is still the best non-computer results system in the land. Some say best including computers, but we wouldn't be so bold!

For more information, contact Simon by telephone on 01531 820761 or preferably e-mail [simonharris@lineone.net](mailto:simonharris@lineone.net)

# **ROSS TRADERS HISTORIC TOUR**

**Saturday, 12th JULY 2008**

Spring update

- ◆ 120 regularity miles of Herefordshire Country lanes in an overall route of 148 miles
- ◆ Mostly pre-plot navigation, some easy plot & bash
- ◆ 10 open and long Tests at the Whitfield Estate and elsewhere, with no reversing
- ◆ Experienced organisers, competing regularly
- ◆ Our traditional finish, with washing line results, a meal and cool drink at our own Clubhouse in Ross after a summer's day of Motor Sport
- ◆ Check out our website for more information
