Speeds

Start at 27 mph

(Exactly four minutes has been added to the time into the first ITC because of the Level Crossing you will encounter soon after the start. So, if you don't get held up, or get held up for less time, then it is suggested that you lose this time before SH 95 on the next yellow road – there are plenty of small pull-ins.)

At the end of the above mentioned ▲, reduce to 21mph

On joining the B4352 (in GS4338) change to 30mph.

On leaving the B4349 (in GS4334) reduce to 25mph until EOR.
