I trust you enjoyed the 20 mile route in Gloucestershire. Also, that the event gave you an insight into navigating in the lanes at night.

All the posts were in place when I collected them immediately after the event, but the nimber plate had fallen off at May Hill (again). This is most unusual, and I'll fix it better next time.

As explained at the start, it is not a race and you had until 2200 to get to the finish without penalty, and all of you managed that quite easily.

There will be another Night Nav in the autumn and I hope we'll get a few more entries then. I'll confirm the date to you all later in the year.

Simon
