I trust you enjoyed the 21 mile route in Gloucestershire.

As explained at the start, it is not a race and you had until 2200 to get to the finish without penalty. All of you managed that easily. Well done!

All the codeboards were in position when I collected them afterwards, except for KV in Sparrows Lane which had fallen off its post - Andy and Dave vindicated...

OH at Kews Lane triangle was very low, but was still there. VN ditto at the phone box triangle in Cliffords Mesne.

Although it was tougher than some of these events in the past, I thought you all got round very well. Some new lanes for you too!

There will be another Night Nav in the autumn, and let you know a date nearer the time.

Simon
