This Policy was adopted by the Directors at their June meeting.

## **Health and Safety Policy Statement**

It is our policy that our activities are carried out at all times by experienced, competent people, so as to ensure that, as far as reasonably practicable, the health, safety and welfare of all those involved in any way with our sporting or social events is not compromised.

We are committed to ensuring that an acceptable and enjoyable environment is created for our activities by encouraging our members and their associates to participate in a professional manner, and be pro-active in taking measures to safeguard health, safety and welfare wherever possible.

The prevention of accidents, and the continuing efforts to reduce the possibility of accidents, is a fundamental goal, and we fully support the safety measures set out in the General Competition Regulations of the Royal Automobile Club Motor Sports Association Ltd, by which our sport is governed.

This policy and its associated documentation will be published to all our members, will be reviewed on a regular basis, and will be updated or revalidated as necessary.

Adopted by R&DMSL directors as current January 2023
